Description						
Sales and use tax imposed on a jukebox						

Assumptions Used in Arriving at Fiscal Estimate

Under current law, a jukebox operator must pay sales or use tax on its purchase of the jukebox as well as any music to be played on the jukebox by a customer for a fee. The jukebox operator cannot buy the music without tax for resale.

The bill provides that, with regard to playing a jukebox the sales tax is imposed only on the sales of playing time on the jukebox. In addition, the bill also provides a sales and use tax exemption for the sale of the following:

- 1. Tangible personal property that is sold to a person in the business of providing a taxable service through a jukebox if the tangible personal property holds music for the jukebox and is used exclusively for the jukebox.
- 2. Tangible personal property that holds music and is sold as part of a jukebox if the sales price of such property is separately indicated from the sales price of the jukebox on the invoice that the seller gives to the purchaser.

According to industry information, the two largest providers of digital jukeboxes are AMI Entertainment and TouchTunes. Together these companies account for 1.6 billion song plays per year. Assuming these companies represent 75% of the market, total plays are estimated to be 2.2 billion song plays per year (1.6 billion / 75%). Assuming the cost per play is \$0.50, total revenue is estimated to be \$1.1 billion. Further assuming that music fees paid by operators are 20% of total revenue, jukebox music fees are estimated to be \$218 million (\$1.1 billion * 20%). According to the Census Bureau, the Wisconsin share of U.S. bars and restaurants is 2.1%. The department estimates the Wisconsin share of music fees to be \$4.6 million (\$218 million * 2.1%)

It is estimated that 2016 sales tax collections will decrease under the bill by \$230,000 (\$4.6 million * 5%). County and stadium district sales taxes were 8.2% of state sales tax revenues in FY15. Assuming this percentage does not change, county and stadium district sales taxes will decrease by about \$18,800 per year.

Long-Range Fiscal Implications
